2.06

The fundamental principle of addition is that 1 and 1—2. Up-to-date this has never been discredited. But here we show proof that such is not always the case.

For instance a dollar deposited this morning, and another one this afternoon on the same account, ordinarily would at the end of the year mean \$2.00. However, the sum on deposit one year from to-day would be \$2.06.

ATTEMPT TO DO MURDER

Deadly Explosive Concealed
In a Bundle of
Wheat.

ONE MAN CRIPPLED.

Dynamite Fed Into a Machine
and Workmen Have Nar-
row Escape.

A threshing machine belonging to Royster & Fields, of Oak Grove, was destroyed by dynamite while it was engaged in threshing the wheat crop of Dr. Word, near Edgerton, Thursday morning. Two negroes who were feeding the machine were injured. One of them, John Garrett, narrowly escaped being killed, having a leg broken and sustaining other injuries. The other man was but slightly bruised.

The dynamite was concealed in a bundle of wheat and was fed into the machine. The explosion wrecked all of the fore part of the threshing machine. The owners of the machine had been ordered by warning letters not to thresh wheat for non-association farmers. Dr. Word is not a member of the Tobacco Association.

Royster & Fields took their broken machine home and announced that they would not thresh any more wheat this season.

FIVE BIG SONS

Who Visited Their Parents
Mr. and Mrs. John B.
Trice, This Week.

The five sons of Mr. and Mrs. John B. Trice have all been at the family home this week and as they seldom all visit their parents at the same time they concluded to weigh, as all are in the heavy-weight class. The average weight of the five was 185 pounds. They are Wm. W. Trice and Rollin Trice of Tampa, Fla.; John B. Trice, Jr. of Schenectady, N. Y., and Frank D. Trice and Walter Trice of this city. All are splendid young men of fine business qualifications. Stephen, the twin brother of William, died several years ago soon after reaching manhood. They have one sister, the youngest of the family.

KILLED WHILE SHOOTING FROGS

Accidental Death of Shirley
Mitchell at Herndon
Thursday.

FORMERLY LIVED HERE.

Body Was Not Found For
Eighteen Hours After
Death.

The dead body of Shirley Mitchell, aged 17 years, was found by a pond near the residence of M. S. Major, of Herndon, yesterday at noon. He had killed himself with a 22 rifle, while shooting frogs Thursday evening.

He left Herndon station about 4 o'clock with his gun. As he did not return home, search was made yesterday and the body was found. It had lain but in the hard rain that had fallen. The gun was near Mitchell's side, with an empty shell in it. The ball entered at the corner of his nose and ranged up through his brain. The young man was a son of W. E. Mitchell, until recently of this city.

It was clearly a case of accidental killing. The boy's hat was lying to one side with two nickels in it.

Burial will probably be in this city.

HURT IN WRECK

R. E. Cooper Injured in
Railroad Wreck in Tennessee

Mr. R. E. Cooper was in the collision near Johnson City, Tenn. on the Southern road Monday and while he escaped the actual crash in which 8 or 10 people were killed, he was thrown from a seat in the Pullman car and sustained painful injuries. He returned home Thursday with sundry bruises on his head and face, both knees stiffened by sprains and a bad cut on one leg. Mr. Cooper proceeded to Johnson City and Dr. R. F. McDaniel the camp physician of The Meacham Construction Co. was summoned and dressed his wounds. Mr. Cooper is still confined to his room.

Still Quiet

A history of events at police quarters since Tuesday up to yesterday morning can be expressed in one sentence: "Nothing doing." If it was not that the officers have to be on the qui vive for fear that something might happen the whole force might take a vacation and leave Chief R. per at the office to answer questions.

If you notice that John Metcalfe's habitual smile is broader than usual attribute it to the fact that he has a 10 lb. girl at his home. The stork sailed in that direction last Wednesday.

COOPERATIVE FARMING

Many Thousands of Associations at Work in Germany to Help the Cause of Agriculture.

At the close of 1905 17,162 co-operative farming associations existed in the German empire, with a membership of more than 1,000,000 farmers; 16,230 of the above number of associations were confederated. Out of the 9,411 associations operating in Prussia 6,059 facilitated credits to farmers, 776 attended to the supply and demand and 1,728 to dairying.

In Bavaria, 2,613 of the 3,294, associations dedicated their work to furnishing credits to agricultural undertakings, 234 to supply and demand, 247 to dairying and 200 to various other purposes; all, however, fostering mutual assistance to husbandmen and thus redounding to their benefit.

The cooperative associations of credit expend loans amounting to, on the average, from \$17,410,000 to \$73,340,000 annually. In 1905 the cooperative bodies for the creation of demand purchased fertilizers, forage, seed, coal and other items amounting to \$13,062,500.

On the other hand, the centers of supply and dairying, which in a comparatively short time have entered a career of great prosperity, realized more than \$865,000 on their transactions.—The Village.

A WONDERFULLY STUPID LAD.

The coroner of a certain town in central Pennsylvania was once called upon to hold an inquest over the remains of a Hungarian laborer. The only witness was a lad of the same nationality, who spoke no English.

"Where do you live, boy?" was the first question of the coroner. The boy shook his head.

"Do you speak English?" next came from the coroner.

Again the boy shook his head. "Do you speak German?"

"Still another negative from the lad.

"Do you speak French?" was the next interrogatory.

For the third time the boy shook his head.

"How old are you?" No reply from the witness.

Then, after a pause, the coroner asked: "Do you speak Italian?"

The lad remained silent. "It ain't no use," observed the coroner, turning to those in the room. "I've questioned this here witness in four languages and can't get no answer. The court is adjourned."—Harper's Weekly.

MR. LYON IN SOCIETY.

"By George!" said the young man who, having done a few noteworthy things, had been invited to Mrs. Leo Hunter's reception, "I'm glad to get away from that crowd of old women for a moment."

"Oh," replied the man who had been strolling around in the conservatory, "I thought you were enjoying yourself. The ladies seemed to be very enthusiastic over you."

"They were enthusiastic enough, but, heavens, where did so many homely women ever come from? That reception-room is a regular chamber of horrors. How did you happen to escape?"

"You see they hadn't any special interest in me. I'm only—"

"Ah, I beg a thousand pardons. You're Mr. Hunter. I might have known it!"

"No. I'm merely the detective whom Mrs. Hunter engaged to see that none of the guests took things belonging to others."

AN OBSTINATE SAFE.

A short time ago the officials of a bank at Seward, Alaska, had trouble in opening the safe. It was a big safe, equipped with a time lock. The clock operating the mechanism had stopped, and all efforts to open the big steel door failed.

Lock experts were brought from all parts of Alaska, but none was able to solve the trouble.

Finally, after several weeks, the bank officials, in desperation, loaded the big safe on a steamer and sent it to Seattle for treatment. All this time \$58,000 was locked up safe and tight.

When the ship tied up at its dock a safe expert was waiting to go aboard. He simply gave two or three light taps with a small hammer, the clock started, and a few hours later the bolt flew back, as usual.

CAR SHORTAGE PREDICTED.

Railroad Commissioner C. C. McChord's Letter of Advice.

Frankfort, Ky., June 24, 1907. TERRY COAL & COKE CO., Hopkinsville, Ky.

GENTLEMEN:

Replying to your favor of the 14th instant, I unhesitatingly advise all consumers of coal to lay in a supply during the summer months and thereby avoid the inconvenience which must result on account of a shortage of cars next winter which in my opinion will be much more acute than was the shortage of last winter, unless the consumers lay in their coal supply as suggested.

You are at liberty to publish this in the interest of the producers and consumers of coal.

Yours Very Truly,

C. C. MCCHORD, Chairman,

R. R. Commission State of Ky.

The railroad and coal operating officials of Western Kentucky have given out the same official notice, and urge us to advise our stockholders, and customers to lay in their coal this summer.

Last winter's experience and high prices, together with the above timely information should be sufficient warning, and we trust our people will take advantage of it and act at once.

We are ready to supply you with coal in car load lots over either R. R. any day "the best coal at summer time prices," and trust that you will give us your orders early while we can get the cars to ship in.

JUST A HORSE TRADE

Michigan Farmer Wouldn't Rent His
Rig But He Sold Out
Cheap for Cash.

Sam Hurdle of local musical
fame had occasion some time ago
to hire a rig at Union Pier, Mich.,
to explore the country near that vil-
lage looking for a farm he wanted
to buy. He found a farmer who
owned a small mare and a wagon
and negotiations were opened at
once.

"I'll pay you one dollar a day for
the horse and wagon for 30 days,"
Hurdle said. That, of course,
would mean that the farmer would
receive \$30 for the rig for a month
and at the end of that time receive
his property back. But he did not
see it that way. At first he was
speechless with amazement and then
regarded Hurdle with scorn.

"Rent her?" he shouted. "Me
rent this rig for one dollar a day?
I guess not yet, stranger. It's no
spring chicken you're talking to. I
know a few things even if I never
have been to Chicago."

Hurdle tried to pacify him and
convince the man that he was in
earnest and not trying to trick him.
"I wouldn't rent that horse for
any amount," said the husband-
man.

"Well, I'll tell you what I'll do,"
Hurdle said, as he took a roll of
bills from his pocket. "I'll give
you \$25 for the rig cash down and
you give me a bill of sale."
"Now you're talking," the farmer
said. "I'll sell, but I am agin
renting." And he made out the
bill of sale.—Chicago Record-Herald.

A DICKENS LANDMARK.

A sale of considerable interest to
lovers of Charles Dickens will take
place in London when Pyncoft
House, Chertsey, will come under
the hammer. The proposed sale
recalls the story of Dickens' "Oliver
Twist," and the efforts of Fagin,
Monks and Bill Sikes to entangle
his hero in the meshes of a criminal
career.

The house ever since the publica-
tion of the novel, says the London
Tribune, has been identified with
that of Mrs. Maylie, where, after
the walk from Bethnal Green and
the meeting in the deserted house
by the river bank, Toby Cratchet and
Bill Sikes forced an entrance
through a window at the back,
which still remains. Through this
window the trembling Oliver was
thrust while Sikes threatened him
with a pistol from without.

In the grounds the "boy" Brillies
and the valiant butler, Mr. Giles,
assisted by "Pincher" and "Nop-
tune," displayed their wonderful
bravery; and across the lawn the
wounded boy staggered back to the
house where he was fated to find
that love and tenderness at the
hands of Mrs. Maylie and "Rose"
which had hitherto been unknown
to him.

It was up the handsome staircase
of the old mansion that the two
frightened servants ran to convey
the news to their mistress that Mr.
Giles had captured a robber, while
the wounded miscreant, "who didn't
make very desperate resistance,"
Miss was left to the care of the
tinkler, who rendered first aid of that
period for fear Oliver should die
before he could be hanged.

SOME ARE BORN LUCKY.

May—When Carrie was out driv-
ing the other day the horse ran away
with her.

Belle—How terrible!
May—It was always lucky!
She was thrown out of the carriage
just in front of a club window.

NEVER GOT OVER IT.

PERFECT CONFIDENCE.

Hopkinsville People Have
Reason For Complete
Reliance.

Do you know how—
To find quick relief from back-
ache;
To correct distressing urinary
ills;
To surely cure sick kidneys?
Just one way—your neighbors
know—
Have used Doan's Kidney Pills;
Have proved their worth in many
tests.

Here's Hopkinsville testimony.
Mrs. W. C. Davis, 829 West
Seventh street, Hopkinsville, Ky.,
says: "Mr. Davis has never had an
occasion to use Doan's Kidney Pills
or any other kidney medicine since
he recommended them in the sum-
mer of 1903. For years prior to that
time he had been an almost constant
sufferer from kidney trouble. He had
intense pains in his back which ex-
tended to his shoulders and annoyed
him all day. They prevented him
from sleeping during the night. The
relief he obtained from the use
of Doan's Kidney Pills which he got
at L. A. Johnson & Co's drug store
was surprising. They acted differ-
ently from any remedy he ever tried
and he has never had a recurrence
of the trouble since using this valu-
able remedy four years ago. It
speaks pretty strongly for Doan's
Kidney Pills that cured him."

G. H. CHAMPLIN.

The dastardly outrage at Edgerton
Thursday was the first case of actual
bloodshed growing out of the law-
lessness that is disgracing Kentucky
and Tennessee. From inflammatory
speeches to threatening letters; from
letters to planted serps; from
destroying plants to barn burning,
and from incendiarism to attempts
at wholesale murder by Russian
methods have been the successive
steps in the reign of kluksluxism that
has so far gone unchecked in the
Dark Tobacco District. The time
has come to stop this era of crime
no matter whose feelings may be
hurt. If the law is inadequate,
there are other ways. Christian
county had experience with night
riders many years ago and found a
way to rid the county of them. In-
diana had experience with White-
caps and adopted a plan that sent
them out of business. The identity
of many of the night riders, espe-
cially those in Trigg county, is no
longer a mystery. Many of them
are so bold in their movements that
they are well known by their victims.
If the law cannot reach them, it
is because officers are neglecting their
duties. The law itself is adequate.
It is a felony to even wear a mask
on a public highway and the greater
crimes all have adequate penalties.
It is true some benighted counties
are in a hopeless condition, where
the officials are in sympathy with
lawlessness and the press is under
the same Unsub tree, but in this
county, at least, there are officers
who are willing to enforce the laws.
Gentlemen, the eyes of the whole
county are on you. The KENTUCKIAN
stands ready to assist you in any
way it can. Get busy.

In the local option election in
Harrison county Thursday the drys
won by a majority of 1,600 and
Prohibition forces also carried the
city of Cynthia by a majority of
forty-seven. This was the second
election held in Cynthia within six-
ty days and had aroused much bitter-
ness. The former election went
wet by 24 votes.

FORT IN FIGHT

Severely Punished In a
Fisticuff With Ben Sory.

Col. Joel B. Fort and Ben Sory, of
Springfield, engaged in a fight on
the train Tuesday morning, in which
Col. Fort got the worst of it. Sory
and Tom. Meneses, whose thresh-
er was dynamited the day before, were
on the train when Col. Fort came in
and engaged them in a con-
versation, in the course of which
Sory expressed the opinion that
Fort's speeches were in a measure
responsible for the reign of lawless-
ness. Col. Fort denied this, when
Sory gave him the lie and when he
made a motion to resent the insult,
attacked him with his fist and con-
tinued to assault him until passen-
gers interfered. Col. Fort's eye
was blacked and his face bruised.
Sory was formerly sheriff of Robert-
son county and has defied the night
riders from the first. On one oc-
casion a delegation of association
men waited on him and he and his
son went out on the porch and defied
the crowd and threatening to kill
any man who molested them.

Since that occurred he has been
let alone. The dispatch sent out
from Ashland City that Col. Fort
had been attacked at his home by
"a number of non-association citi-
zens," had no foundation on fact,
except the altercation above report-
ed to.

Doctor's loss approximates \$10 or
more. Just enough to send the fel-
low to Eddyville should the law ever

Lewis wouldn't be instrumental in
sending him there but would be
more apt to point the thief to a bet-

THURSDAY'S RAIN

Was A Ground Soaker And Gully Washer.

One inch and three one-hundredths of rain fell Thursday beginning at 5 p. m. The day though not as hot by a few degrees as others of the heated term, was "hot enough" for everybody and very little relief was obtained just before the rain began to fall.

The first clouds passed round the city going north. Reports give the rainfall north along the line of the L. & N. as being much heavier than in the city. The rain was accompanied by a great deal of thunder and lightning but we have heard of no casualties.

For a mild, easy action of the bowels, a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

CALLANT OFFICER LAID TO REST

Brief Services Held at the Baptist Church Thursday.

WITH MILITARY HONORS

Body Arrived Wrapped In The National Colors—Buried at Riverside.

The body of Midshipman Faulkner Goldthwaite, killed off Cape Cod last Monday, by the explosion on the Georgia, arrived here Thursday morning and was taken to the residence of his mother, Mrs. Willie Faulkner Goldthwaite. At 5 o'clock the ritualistic funeral service of the U. S. Navy was held by Rev. M. A. Jenkins, assisted by Rev. George C. Abbott, at the Baptist church. The service consisted only of Scripture reading by Dr. Jenkins and prayer by Dr. Abbott. The choir sang "My Country 'Tis of Thee," while the body was removed from the church, under the military escort of Co. D, commanded by Capt. E. W. Clark and Maj. E. B. Bassett.

Just as the services were ended a heavy downpour of rain began and the march to Riverside was made under most trying circumstances. The attendance at the church was large and there was an air of deep sadness everywhere over the fate of the brilliant young officer. The casket arrived wrapped in the national colors and was opened for identification. The features were not disfigured. His death was probably caused by inhaling the flames and fumes following the explosion. The official investigation reports that the explosion was caused by a "flare back," that is pieces of burning packing left in the gun were pulled out and dropped on the bag of powder ready to be used in reloading, when the gun was opened for inserting the load.

There were many beautiful floral offerings sent by loving friends.

The pall bearers were Messrs. S. U. Woodriddle, Merrill Russell, Elkton; Rollin Trice, Tampa, Fla.; John B. Trice, Jr., Schenectady, N. Y.; Meriwether A. Mason, George S. Howell, Richmond, Va.; Robert M. Fairleigh and M. H. Nelson.

FINE RECORD

Dead Hopkinsville Boy Was Athlete of First Rank And His Scholastic Standing Was High.

Washington, July 17.—Midshipman Goldthwaite, of Hopkinsville, Ky., who succumbed to injuries received in the Georgia explosion, says a Washington dispatch was a good scholar at the Naval Academy, succeeding in obtaining a scholastic standing high enough to allow him to graduate with the second of three sections into which the members of the class were divided. He was more prominent, however, as an athlete, and in the various phases of life in the Academy outside of scholastic work. He was a member of the Academy baseball nine, and played in left field on the regulars for three continuous seasons. He was one of the most reliable men both in fielding and batting which the Academy ever had. He was also a football player and captained his class team.

Goldthwaite also had an important position in the brigade of midshipmen, being Cadet Lieutenant, in command of the Third company, the company which won the honor of carrying the flag for general efficiency throughout the year.

The dispatch also spoke in equally complimentary terms of Midshipman Cruse, the other Kentucky boy who was hurt.

ELECTRIC FAN FAMINE HERE

City Light Co's Supply Exhausted and No More In Sight.

'ALMOST' A NECESSITY.

Noiseless Little Temperature Reducer Gaining In Favor Every Day.

Though the old-time palm leaf fan can never be altogether superseded by the electric fan of today, yet they cannot be said to be as much in demand as in former years.

Large auditoriums are made comfortable during torrid weather by having a strong current of air pumped through them or by the use of numerous revolving electric fans, and hence the palm-leaf has had to "take a back seat."

In stores and offices where the temperature runs up to 70 and above the noiseless little whirler is a blessing to those who have to remain at the desk, no matter what the temperature may be. A man does not have to sit at his desk nowadays with a fan in one hand and a pen in the other—the electric fan has settled that forever.

Electric fans may truthfully be called a necessity in the cities, and they are coming more and more into use every summer. In fact buildings are erected now that would not be habitable without them. So great is the demand for them that the manufacturers are altogether unable to fill orders for several days or weeks after the orders are sent.

Last week they had a fan famine at Paducah and as they had an ice famine at the same time, people began to think they would melt. Now Hopkinsville is in the midst of a fan famine. The City Light Co. has not been able to install fans ordered for a week or more. On the 10th they wired in an order to a Cincinnati house for a lot and received a wire answer saying that the stock was entirely exhausted and the order could not be filled for several days.

So there you are. You will have to go back to the leaf that the Creator seems to have made specially as the instrument with which man is to cool off when the weather gets too hot for him. The little buzzer has, to a certain extent, forestalled the palm leaf, and instead of a fellow getting hotter trying to fan himself cool, the little busy fan works while he sleeps. It has been said that man has improved on nature in but two things, false teeth and artificial ice. If the electric fan isn't ahead of the palm leaf fan we can't see why. "Keep cool" if you can for awhile longer. The Light Co. will be able to accommodate you before the dog days are gone.

GREAT SALE

Of Lots at Cerulean Springs,
August 1st, 1907.

Accessible by Railroad From
Every Point of The
Compass.

The Lots Are to Be Dis-
posed of at Public
Auction.

The sale of 51 building lots at Ce-
rulean Springs, Ky., is but three
weeks off. The sale is to be made at
public auction on Thursday, August
1st, and will doubtless attract a large
number of buyers.

The advantages of this sale cannot
fail to be of interest to everybody,
and especially to those who want to
own property contiguous to the noted
Cerulean Springs Hotel property. The
lots placed on the market border
on the grounds of the hotel and
park. Purchasers will have the free
use of the mineral springs of the hotel
and all privileges of the park lying
on the northern and eastern sides of
the hotel grounds.

As a health resort Cerulean
Springs is so well known all over
this country that the lots should be
eagerly sought after for country
homes by those seeking health and
recreation for their families, as well
as those of more limited means who
want to become citizens of the thriving
town which takes its name from the
springs.

The lots to be sold form part of
the original Cerulean Springs Hotel
grounds. The springs were patronized
as far back as 1819 by the southern
planters, who, not having the
advantages in those days of railroad
transportation, drove through the
country in carriages, their servants
coming with them. Now there is a
magnificent hotel with baths and
every modern convenience, with a
table supplied from the garden and
farm, that cannot be surpassed by
that of any other watering place in
this section. The proprietor gives
his entire attention to the manage-
ment of this property and year by
year the healing properties of the
springs and the superior accommoda-
tions of the hotel are becoming more
generally known.

The town of Cerulean has a bank,
five churches, four stores, two resi-
dent physicians, as well as a mer-
chant mill. The springs can be
reached from all points of the com-
pass by the I. C. R. R. Regular
mails, telegraph, telephones, and ex-
press offices all contribute to the
convenience of the patrons of the
hotel and citizens. The plan of put-
ting on the market 51 lots cannot
fail to arouse interest among men of
sound business ideas.

The lots are well kept, set in over
250 maple and Carolina popular
trees, and are in every wayfall that
can be desired.

One of the conditions of sale
will be that no residence or business
house erected on the lots shall cost
less than \$1,000. Remember that
the sale takes place on Thursday,
August 1st, 1907.

Free dinner to everybody that
attends the sale, which begins prompt-
ly at 2 p. m. Terms 1/3 cash, balance
in 12 months, with 6 per cent. inter-
est.

FELL SHORT OF REPUTATION

How George Peabody, the Philan-
thropist, Was Judged by a Couple
of Irish Fishermen.

A good story of John Bright and
Peabody, the philanthropist, is re-
called by Justice Johnson's interest-
ing reference to the former in his
charge to the jury at Limerick in
the action of William O'Brien, M.
P. The judge pointed out that it
was to Bright, who came frequently
to Ireland to fish at Castleconnell,
near Limerick, that they owed the
initiation of the action to buy
land in Ireland for the tenants. On
these occasions the great tribune
was always accompanied by George
Peabody.

One day they went a couple of
miles up the Shannon between
Castleconnell and Killaloe. They
had engaged the services of two
boatmen and as Bright and Peabody
were keen anglers they made
a long day of it.

On returning in the evening
the river bank, asked what sum the
boatmen were entitled to for their
time. The constable said anything
from seven and sixpence to ten
shillings. Bright turned to his com-
panion, saying: "I have no change,
Peabody: have you three half
crowns?"

The millionaire produced the
coins and gave them to one of the
boatmen, who said: "And is that
all ye're givin' me?" "That is all,"
replied Peabody. "Well, that
bates all I ever heard," observed
the boatman, adding, as he
scratched his head, "An' they call
ye Paybody. Faith, I should call
you Paynobody!"

EXPLOSION OF GASOLENE.

A gasolene tank rarely explodes.
It cannot unless it contains gasolene
vapor and air in explosive pro-
portions, which latter condition is
almost never present.

It does not explode because it
contains too little air or too much
gasolene. Even if a tank of gasolene
were to burst from heat applied
to its exterior the confined heavy
gas would not explode if in contact
with flame or fire, but would burn
instead.

True, a tank of gasolene with no
vent could do considerable damage
were it to burst and throw burn-
ing oil and flaming gas about, but
1,000 gallons of gasolene in a ves-
sel's bilges would not be so danger-
ous from explosion as a hundredth
of that amount. The larger quan-
tity would burn rapidly, while the
smaller would be sufficient, if
mixed with the proper amount of
air, to utterly demolish almost any
boat.—Scientific American.

TENNYSON AS A GROWLER.

Tennyson himself, though not
nearly so grouchy as the Chelsea
sage, was yet considerable of a
growler on occasion. Especially
did this tendency on his part be-
come manifest when he suspected a
disposition on any side to lionize
him.

It is related that, at a dinner
in London, to which he had gone much
against his will at the solicitation of
a relative, the poet laureate soon dis-
covered that the company were ex-
pecting some pearl of thought from
him. He glowered at the gathering
in such a way as visibly to disconcert
some of them. Then, as if pur-
posely to utter the most unpoetical
remark he could devise, with a grim
smile he turned to his hostess—all
the guests in absolute silence, wait-
ing the slightest word of genius—
and growled out:

"Madam, I like my mutton out
in chunks—in chunks, madam, in
chunks!"

State College of Kentucky,

LEXINGTON, KENTUCKY.

THE STATE COLLEGE of Kentucky offers the following courses, namely, Agricultural, Mechanical
Engineering, Civil Engineering, Mining Engineering, Electrical Engineering, Normal School,
Classical and seven Scientific courses, each of which extends over four years and leads to the
Bachelor's degree. Each course is organized under a separate faculty. The general faculty, con-
sisting of professors, assistant professors and instructors, numbers over fifty.

County appointees receive free tuition, privilege of residence in dormitories, fuel and lights
and traveling expenses, if they remain ten consecutive months, or one collegiate year.

The laboratories and museums are large, well equipped, comprehensive and modern. Military
Science is fully provided for as required by Congress.

Graduates in the several courses of study readily find employment with liberal remuneration. The total
number of matriculates last year was 901. Each department has a specialist at its head, with the necessary
number of assistants.

Summer schools are provided for in Pedagogy, Engineering, and Instruction in Science and the Liberal Arts.

The young women find an excellent home, with board and lodging in Patterson Hall, which is well equipped
with all modern conveniences, bath-rooms, hall for physical culture, at \$3.00 per week. All the courses of study
in the College are open to young women upon identical conditions with those applying to males.

The attendance upon the Normal School in connection with the Department of Education last year more
than doubled that of any preceding year.

Three new buildings, namely, one for the department of Education, one for Agricultural Science, and a
Library Hall, are in process of erection and will be completed early in the next collegiate year.

"The officers brows knitted savagely, and it began to look as if this might be some of our business. What happened in Indiana?"

"Yes."

"How far away?"

"I don't know." They caught up in a canyon somewhere out yonder, may be three or four days ago; there was a lot killed, some of them soldiers. My dad was shot, and then that night he got me out up the rocks, and he was carrying me in his arms when I—I fainted. I saw there was blood on his shirt, and it was dripping down on the grass as he walked. That's about all I know."

"Who is the man? What's his name?"

"The girl looked squarely into the lieutenant's eyes, and for a fine reason even to herself, felt calmly. "I don't know; I never asked."

"Sergeant Carson rose stiffly from his knees beside the extended figure and strode heavily across toward where they were sitting, lifting his hand in soldierly salute, his heels clanking as he stepped sharply together in military precision.

"The fellow is getting his eyes open, sir," he reported, "and is breathing more regular. Purty weak yet, but he'll come round in time." He stared curiously down at the girl now sitting up unsupported, while a sudden look of surprised recognition swept across his face.

"Great guns!" he exclaimed, eagerly.

"But I know you. You're old man Gil's gal from Bethune, ain't ye?"

"Yes," she acknowledged simply.

"He's dead."

"Never mind, little girl," the lieutenant said, with boyish sympathy.

"I knew Gil, and now the sergeant has spoken. I remember you quite well. Thought all the time your face was familiar, but couldn't quite decide where I had seen you before. So poor old Gil has gone, and you are left all alone in the world. Well, he was an old soldier, could not have hoped to live much longer anyway, and would rather go fighting at the end. We'll see you back with us in time, and the ladies of the garrison will look after you."

"The recumbent figure lying a few yards away half lifted itself upon one elbow, and the lieutenant, who was haggard, stared uncertainly across the open space. For an instant his gaze dwelt upon the crossed sabers shining in the soldier's hand, then he turned to the face of the girl. With one hand pressed against the grass he pushed himself slowly up until he was sitting, his teeth clenched tight, his gray eyes gleaming feverishly in their sunken sockets.

"I'll be damned if you will!" he said, hoarsely. "She's my girl now."

CHAPTER V.

A New Proposition.

To one of the least inclined toward fastidiousness, the Miners' Home at Glencliff was a place of no small desirability for long-continued residence. But such a one would have had small choice in the matter, as it had been the Miners' Home was unquestionably unique as regards architectural details, having been constructed by sections, in accordance with the rapid development of the camp, and enjoyed the further distinction—there being only two others equally stylish in town—of being built of sawn plank, and greatly to the little difficulty of the unfortunate occupants, lack of seasoning had resulted in wide cracks in both walls and stairway, while strict privacy within the chambers was secured by guarded precincts, except as the transient guests imported it internally.

Mr. Hampton during the course of his somewhat erratic career had previously passed several eventful weeks in Glencliff. He was not, however, unpopular at the Miners' Home, and having on previous occasions established his reputation as a competent and successful gambler, he was now in procuring promptly the very best accommodation which the house afforded. That this arrangement was uncomplained was due to the fact that the discomfort of two vociferous eastern tourists did not greatly interfere with his pleasurable interest in the situation.

"And those two fellows in here to argue it out," he said, languidly, after listening disgustedly to their loud lamentations in the hallway, and addressing his remarks to the girl, who had glanced into the room to be again assured regarding her comfort.

"Yes."

"How far away?"

"I don't know." They caught up in a canyon somewhere out yonder, may be three or four days ago; there was a lot killed, some of them soldiers. "The girl looked squarely into the lieutenant's eyes, and for a fine reason even to herself, felt calmly. "I don't know; I never asked."

"Sergeant Carson rose stiffly from his knees beside the extended figure and strode heavily across toward where they were sitting, lifting his hand in soldierly salute, his heels clanking as he stepped sharply together in military precision.

"The fellow is getting his eyes open, sir," he reported, "and is breathing more regular. Purty weak yet, but he'll come round in time." He stared curiously down at the girl now sitting up unsupported, while a sudden look of surprised recognition swept across his face.

Wynkoop, the Presbyterian missionary—wouldn't that cork yet?"

"It is evident that you, Mr. Hampton, stared at her for fully a minute in an amazement too profound for fit expression in words. Then he swallowed something like this through his teeth: "Show the gentleman up," he said, shortly, and sat down to wait."

The Rev. Howard Wynkoop was neither giant nor dwarf, but the very fortune possessor of a countenance which at once evoked confidence in his character. He entered the room quietly, rather dreading this interview with one of Mr. Hampton's well-known proclivities, yet in this case feeling abundantly fortified in the righteousness of his cause. His brown eyes met the inquisitive gray ones frankly, and Hampton waved him attentively toward a vacant chair.

"Our lines of labor in this vineyard being so entirely opposite," the latter said, coldly, but with intended politeness, "the honor of your unexpected call quite overwhelms me. I shall have to trouble you to speak somewhat softly in explanation of your present mission, so as not to disturb a young man beyond."

"It was principally upon her account I ventured to call," Wynkoop explained in sudden confidence. "Might I see her?"

Hampton's watchful eyes swept the other's face suspiciously, and his hands clenched.

"The preacher shook his head.

"Friend of the family, perhaps?"

"No, Mr. Hampton. My purpose in coming here is purely proper, yet the request was not advanced as a right, but merely as a special privilege."

A moment Hampton hesitated, then he arose and quietly crossed the room, holding open the door. Without a word being spoken the minister followed, and stood beside him. For several minutes the eyes of the two rested upon the girl's sleeping form.

"By God," he exclaimed at last, rising to his feet and pointing toward the door, "I am sure that you, before I forget you, little girl, you impudent fool! See here—I saved that girl from death, or worse; I risked her life to save her from hell; I like her; she's got sand; so far as I know there is not a single soul for her to turn to for help in all this wide world, and you, you miserable, sniveling hypocrite, you little creeping Presbyterian puppy, you want me to shake her! What sort of a wild beast do you suppose I am?"

Wynkoop had taken such a hasty step backward, impelled to by the fierce anger blazing from those stern, gray eyes. But now he passed, and for the first time since he had entered the room, he looked at the girl with a steady gaze. He saw that she was not a single soul for her to turn to for help in all this wide world, and you, you miserable, sniveling hypocrite, you little creeping Presbyterian puppy, you want me to shake her! The First Advantage

FROM

THE KNOXVILLE CONNECTION,

COMES TO

Anderson's Store.

We knew Mr. Anderson's connection with the great city stores at Knoxville and Chattanooga, whose annual sales amount to **Two Million Dollars**, would bring great benefit to the Hopkinsville business, but we did not expect the first advantage to come so quickly. Hardly had Mr. Anderson gotten his hand on the business before the Chas Rosenthal stock at Chattanooga, of \$60,000.00 of dry goods is bought at sixty cents on the dollar.

Messrs. Rosenthal had been in business little over a year, but like many other good merchants tried to do too much on small capital and impatient creditors forced them into bankruptcy. This entire stock is divided between the Hopkinsville, Knoxville and Chattanooga stores, and will be sold, regardless of value.

The division was made by Mr. Anderson personally, and he writes that he has sent Hopkinsville only such goods as he knew the trade here wants, clean—staple—useful merchandise—such as you need every day in the year—goods that you can buy and lay away, and know the value is increasing while you wait to use them. To make this, **Our First Advantage** from the new connection, a memorable event in Hopkinsville, we will on next Tuesday, July 23, begin **The Last Cut Sale of the Season**, and for five days will offer prices that will make this store the economy center of all Christian county.

In addition to the Rosenthal stock we will throw in this sale **Twenty Thousand Dollars** of our own stock at prices less than we could possibly buy the goods to-day. Clothing, shoes, Furnishings, Hats Ladies' skirts and suits, Carpets, trunks and valises, all go at prices that will be an inspiration to the most economical buyers. Read this sheet carefully; fix in your mind the prices and articles you want, and come with the assurance of seeing everything just as advertised, Tuesday, July 23rd, is the first day, and only five days in all, but every day is full of bargain opportunities.
